We are actively seeking a few more drop-off sites in the Reston/Herndon/Ashburn area. If you would like to offer your porch or carport to be a distribution site, we would love to hear from you. We need at least ten participants per site, and if you assemble a group and host it, you get a \$300 discount on your share.

Requirements for a drop-off location:

*Must be out of the sun and rain, but does not need to be indoors. Covered porches and carports work well.

*Must be accessible to farmers and shareholders on Tuesday afternoon, until dark.

*The host is the contact person for the group, sending reminders and updates by e-mail occasionally, and finding a home for any unclaimed vegetables.
